

Introducing HYLA!

HYLA is the Hudson Youth Leadership Academy. It is a leadership and social justice-themed day camp designed to give middle school, high school and college freshmen youth the confidence and leadership skills they need to bring about social change and civic engagement within their communities.

For four fun-filled days of inspiring and thought-provoking activities, participants learn about social justice issues and leadership development.

Who is HYLA for? The community benefits! Although HYLA is designed for middle school, high school and college freshmen, they are not the only ones who benefit from the program. The community benefits from having young people concerned about the world around them and the needs of their own community.

What happens at HYLA? HYLA is a high energy camp filled with cooperative, trust building, and leadership games. Facilitators are joined by other groups such as: CEJJES, SHARE; Center for Safety & Change; Martin Luther King Multi Purpose Center and Holocaust Museum and Study Center to discuss nonviolence, bias awareness, and leadership within the local and global community.

Participants are encouraged to take their learnings from the four days to create and/or design projects to effect change within their own community or within the larger global community.
